

PRESIDENT'S MESSAGE

CALIFORNIA STATE BOARD OF
OPTOMETRY

Happy Holidays Board Members,

December 1, 2017

Another year is winding to a close. Quite the productive year it has been, between the launch of the Dispensing Opticians Committee, passionate appeal to legislators to carry our Children's Vision Bill, passage of our Sunset Bill and a strong start to implementing tactics targeting our strategic plan objectives.

Everyone played a key role in moving our agenda forward, with strong committee meeting participation throughout the year. And your work did not end here. When we were not together as a full board, we were using the time between meetings to connect with other boards, meet with optometry school students and join association meetings for opticians and optometrists.

It's been quite a productive year! Thank you for your part in advancing consumer protection for all Californians. We appreciate all that you do.

As we close out 2017, I send you all a special wish for a wonderful holiday season.

Cyd
