PURPOSE

This handbook serves as your notice of eligibility and is designed to provide you with general information regarding the California Laws and Regulations examination processes and content.

To obtain a license to practice optometry in the State of California, an applicant is required to successfully pass the examinations developed by the National Board of Examiners in Optometry (NBEO) and the California Laws and Regulations Examination. The primary purpose of these examinations is to help ensure public health and safety by assessing the candidate’s ability to safely practice optometry at a minimum entry level within California’s laws and regulations.

The NBEO examinations test the candidate’s optometric education and training. The California Laws and Regulation’s supplemental examination identifies candidates who are qualified to safely practice optometry in the State of California.

DESCRIPTION OF OPTOMETRIC PRACTICE

The practice of optometry includes the prevention and diagnosis of disorders and dysfunctions of the visual system and the treatment and management of certain disorders and dysfunctions of the visual system, as well as the provision of rehabilitative optometric services, and is the doing of any or all of the acts described in California Business and Professions Code section 3041.

EXAMINATIONS DEVELOPMENT

The Board of Optometry works with the Department of Consumer Affairs’ Office of Professional Examination Services (OPES) to develop the law exam as required by the California Legislature and defined in Business and Professions Code Section 139. OPES provides examination-related services to the DCA’s regulatory boards and bureaus in order to ensure that licensure examination programs are fair, psychometrically sound, valid, and legal. Specific services provided include performing occupational analyses, conducting exam item development, evaluating performance of examinations, and consulting on matters pertaining to the measurement of minimum competency standards for licensure.

In addition, Government Code Section 12944 (a), requires that all licensing boards, programs, bureaus and divisions establish job-relatedness of licensing examinations. The following guidelines meet the mandates when developing law examinations:

- First, an Occupational Analysis (OA) is developed in workshops and conducted state-wide with the assistance of state licensed optometrists who serve as Subject Matter Experts.

- Second, the information gathered is then used to develop an examination plan in order to update the questions for the law exam.

- Third, on-going examination development workshops are conducted to ensure the exam is fair, valid, legal and captures the current scope of practice that affects optometric practice in California. Individual test questions are written, developed, reviewed, and approved by the subject matter experts under the guidance of OPES Test Validation and Development Specialists.

EXAMINATIONS BY PSI

The State has contracted with PSI to conduct its examination program. PSI provides examinations through a network of computer examination centers in California and ten additional nationwide sites.

EXAMINATION PAYMENT AND SCHEDULING PROCEDURES

In order to be determined as eligible, candidates must submit a completed Application for Licensure as an Optometrist, which can be found on the Board of Optometry’s website (www.optometry.ca.gov). Once the application is processed by Board staff, the candidate will be determined to be eligible, and the Board will notify the examination administration contractor, PSI. PSI will mail a scheduling notice indicating how the candidate may schedule an examination.

Your examination eligibility expires, and your application is deemed abandoned if you fail to take the examination within one year after being deemed eligible by the Board. This is the date on the eligibility letter the Board sends to you. When your eligibility expires, you will need to reapply to the Board to be considered eligible to take the examination.
The following fee table lists the applicable fee for the examination. The fee is for each registration, whether you are taking the examination for the first time or repeating.

| Examination Fee | $29.15 |

REPORTING TO THE EXAMINATION SITE

On the day of the examination, you must arrive at least 30 minutes prior to your scheduled appointment time. This allows time for check-in and identification verification and provides time to familiarize yourself with the examination process. If you arrive late, you may not be admitted to the examination site and you may forfeit your examination registration fee. Even though candidates will be thumb printed, you are still required to comply with any identification requirements established by the appropriate regulatory entity.

REQUIRED IDENTIFICATION AT EXAMINATION SITE

You must provide 1 form of identification, either:
• An un-expired State issued Driver License.
• An un-expired State Department of Motor Vehicles Identification Card.
• A current U.S. military-issued identification card.
• An un-expired passport.
• A U.S. Government-issued passport card.

If you cannot provide the required identification, you must call (877) 392-6422 at least 3 weeks prior to your scheduled appointment to arrange a way to meet this security requirement. Failure to provide all the required identification at the time of the examination without notifying PSI is considered a missed appointment, and you will not be able to take the examination.

CALIFORNIA LAW SECURITY PROCEDURES

• Paying or using professional or paid examination-takers for the purpose of reconstructing any portion of the licensing examination;
• Obtaining examination questions or other examination material, except by specific authorization either before, during, or after an examination; or
• Selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered licensing examination.

Communicating with any other examinee during the administration of a licensing examination.

Copying answers from another examinee or permitting one’s answers to be copied by another examinee.

Having in one’s possession during the administration of the licensing examination any books, equipment, notes, written or printed materials, or data of any kind, other than the examination materials distributed, or otherwise authorized to be in one's possession during the examination.

• Impersonating any examinee or having an impersonator take the licensing examination on one’s behalf.

Nothing in this section shall preclude prosecution under authority provided for in any other provision of law. In addition to any other penalties, a person found guilty of violating this section, shall be liable for the actual damages sustained by the agency administering the examination not to exceed ten thousand dollars ($10,000) and the costs of litigation.

The California State Board of Optometry may deny, suspend, revoke, or otherwise restrict a license on the ground that an applicant or licensee has violated Section 123 pertaining to subversion of licensing examinations.

IMPORTANT INFORMATION ABOUT TAKING AN EXAMINATION

1. All candidates will have their thumbprint taken during examination check-in. The thumb print must be matched after candidates return from a restroom break and any time the candidate leaves and returns to the test site after check-in.

2. The temperature in the testing room is maintained at a moderate level. Candidates are advised to layer clothing. Acceptable layered clothing includes lightweight shirts, sweaters, and pullovers without pockets or hoods. These items must be worn upon check-in, while you wait to enter the testing room, and during your initial seating for the examination. If the layered item is removed during the examination, you will be required to store it in the lobby while time continues to count down on your examination. Outerwear (coats, heavy jackets, vests, shawls, scarves, etc.) is not allowed in the testing rooms.

3. There are timing mechanisms available in the testing room and on the computer console to help candidates keep track of time during the test administration. Candidates are not permitted to bring watches or other timekeeping devices into the testing rooms.

4. Only one candidate will be allowed to take a restroom break at a time. Candidates are required to sign out when leaving and returning to the testing room. If a candidate’s restroom break takes longer than 5 (five) minutes, a proctor will check on the candidate and will notify the applicable regulatory entity of the occurrence. The regulatory entity will investigate and take appropriate action.

5. The following is a non-exhaustive list of personal items that are not permitted in the testing rooms:

***Jewelry that is allowed into the examination room is subject to inspection.

****Drugs that are medically necessary during the pendency of the examination may be brought into the examination site, in a container bearing a proper prescription label with the name of the candidate and of the drug; any such medication is subject to examination by a proctor upon check-in.

Examination proctors will have considerable discretion to refuse permission of clothing and/or items that compromise the integrity or security of the examination.

During the check-in process, all candidates will be asked if they possess any of the prohibited items and all candidates will be asked to empty their pockets. If prohibited items are found during check-in, candidates must return these items to their vehicle or other place of safekeeping. Neither PSI nor the Department of Consumer Affairs will be responsible for the items. Any candidate possessing prohibited items in the testing room will have his or her examination results invalidated, and PSI will notify the appropriate regulatory entity of the occurrence.

6. Shoes must be worn at all times and feet are not permitted on the chairs. Feet must remain on the floor during examinations.

7. Copying any portion of the examination content by any means, or communicating examination content for the purpose of aiding its unauthorized reproduction, whether before, during, or after the examination, is a violation of PSI security policy and existing law. Either one may result in the disqualification or invalidation of examination results, the denial of your license, and may result in criminal prosecution.

8. If a candidate is asked by a proctor to step into the lobby during your examination, the proctor will suspend the candidate’s examination, so all remaining test time will be retained.

Only candidates, and those individuals with prior regulatory entity approval, are allowed to be present in the testing sites.

If candidates require that an exception be made to ANY of the abovementioned security procedures, candidates must contact their regulatory entity PRIOR to the date of their examination. The regulatory entity must provide the exception to PSI. NO EXCEPTIONS WILL BE MADE ON THE DAY OF THE EXAMINATION.

**About the Examination**

The California Laws and Regulations Examination is based upon a test plan developed by California licensed optometrists. The plan identifies aspects of practice related to the tasks that an optometrist must be able to perform upon licensure. The exam consists of 50 multiple-choice questions from major job duty areas. The examination may also contain an additional number of items for the purpose of pretesting (non-scorable items). Pretesting allows performance data to be gathered and evaluated before the items are scorable in a future examination. These pretest items, distributed throughout the examination, are not identified or used in calculating the...
examination score. The candidate is given 1 hour and 15 minutes to complete the exam.

**EXAMINATION SCORES**

At the end of your exam, you will receive a pass or fail result on a printed score report. Numerical (raw) scores are provided to candidates who fail but are not provided to candidates who pass. Your test results are confidential and are released only to you and the Board of Optometry. To protect your privacy and to maintain the confidentiality of test results, score information is not given over the telephone.

Failing Score Reports: The score report will indicate the candidate’s overall score, including the number of questions answered correctly. It also reveals how the candidate performed on each major section of the test as defined in the study guide below. The number correct in each content area is displayed. The purpose of providing this information is to guide candidates in areas requiring additional preparation for re-testing.

Re-Examination: Candidates who fail may re-take the law exam after 180 days from the date of the examination. The date the candidate will be eligible to re-examine will be provided on the score report. Candidates must wait to register to re-examine after the 180 days have elapsed. PSI will not allow candidates to register earlier. After the second failed exam, a request for reexamination form will be provided with the score report at the test center or may be obtained by contacting the Board at 916-575-7170. Candidates must complete the form and submit to the Board with the correct fee for re-examination. A notice confirming the date the candidate will be eligible to re-examine will be sent approximately 180 days from the date of the examination. Candidates are permitted to take the exam two times in a 12-month eligibility period.

**OBTAINING A COPY OF THE LAWS AND REGULATIONS**

The Board of Optometry’s law and regulations can be found at www.optometry.ca.gov; click on the tab titled “Laws/Regulations,” on the homepage. Review the following link:

- Optometry Laws and Regulations (This is the 2013 version of the law book)

Make sure to thoroughly review all the sections in the link above during your studies, as all law examinations will reflect all law changes up to your examination date.
It is important that candidates prepare for the examination by studying the state and federal laws and regulations as indicated in the study guide. The study guide describes the examination content required to demonstrate acceptable competence by a newly licensed optometrist in California. It is organized into four major content areas. Content areas specify the practical knowledge required for the practice of optometry as referenced in the sections of the Business and Professions Code, California Code of Regulations, Health and Safety Code, Education Code, Welfare and Institutions Code, Penal Code, and the Federal Code of Regulations that govern and regulate the profession of optometry in California. Each content area yields a specific number of questions on the examination. The proportion of questions from each content area is based on the importance of knowledge of code sections contained in each content area for the safe and effective practice of optometry.

All code sections referenced in the attached study guide can be found in the 2015 edition of the law book issued by the California State Board of Optometry, which can be accessed online at www.optometry.ca.gov/lawsregs/laws.pdf, or at http://www.leginfo.ca.gov/.
