j. EYEXAM OF CALIFORNIA – KEVIN KIM

- i. Ophthalmology Medical Updates

Dr. Pruitt stated that it appears this course was presented at a Luxottica meeting and may not be open to the public.

Drs. Bragg and Wang noted that this course appeared to be two different talks merged into one. The provider is asking for ocular disease credit but Dr. Wang believes the first half of the presentation focused on the machines used and did not cover geographic atrophy itself. The second part covered traumatic injury.

This agenda item was tabled to confirm with the provider whether this course was presented to the public or Luxottica participants only.

Action item:

- Follow up with the submitter of item 5.j.i. to determine if it was open to the public or only open to members of Luxottica.
